

Improvisation in the learning organization:  
A defense of the infra-ordinary<sup>1</sup>

**Miguel Pina e Cunha** is the Fundação Amélia de Mello Professor of Leadership at Nova School of Business and Economics, Universidade Nova de Lisboa, Lisbon, Portugal. His research deals, mostly, with the surprising (paradox, improvisation, serendipity, zemblanity, vicious circles) and the extreme (positive organizing, genocide).

**Stewart Clegg** is Professor in Management at UTS Business School. The central focus of his theoretical work has always been on power relations. He is the author of two widely used textbooks on Management & Organizations: *An Introduction to Theory and Practice* (with Kornberger and Pitsis) and *Strategy: Theory and Practice* (with Carter, Kornberger and Schweitzer), both published by Sage. He is also the chief editor of the *Handbook of Organization Studies* (with Hardy, Nord and Lawrence), *Handbook of Power* (with Haugaard) and *Handbook of Macro-Organizational Behavior* (with Cooper), all published by Sage.
